

Web 2.0 and Semantic Web for Society Publishers

PROJECT APPLICATION FORM

Please complete the details below if you would like to be considered for participation in this pilot project. Applications are invited from individual society publishers, but joint applications are also welcome from two or more societies within a particular discipline (of particular value, as this provides a greater proportion of metadata within a particular discipline, which in turn is likely to be of greater value for members and readers).

This information will be used by TBI and Talis to draw up a suitable short-list of applicants for further discussion, after which TBI and Talis will make a final selection of 2 or 3 applicants for participation. Completing this form places you under no obligation to participate in the pilot at this stage – you can make a decision about the value to your society following initial discussions, should you be short-listed.

Please submit this form to the address shown by **30th September 2008**.

Society/ies* name/s: (*if joint application with other societies in your discipline)

Society 1: _____

Society 2: _____

Society 3: _____

Address [corresponding society]: _____
